Problem Statement:

Breaking Barriers to Accessible and Transparent Student Healthcare

The Challenge: Students face a lack of transparency and accessibility in navigating university-provided health insurance.

Key Pain Points:

- Confusion about coverage details and provider options.
- Unexpected healthcare costs causing financial stress.
- Delays in seeking care due to unclear out-of-pocket expenses.

Impact:

- 50% of students avoid seeking healthcare due to cost concerns.
- 70% delay care because they are unaware of their out-of-pocket expenses. (Sources: Health Affairs, Journal of Student Health)

The Problem

Students, particularly international students, rely on university-provided health insurance but face significant barriers in understanding and utilizing their coverage effectively.

Lack of Transparency:

- Insurance details are often buried in complex documentation.
- Students struggle to find clear information about covered services, copays, and provider networks.

01

Accessibility Challenges:

- There is No centralized platform to access all relevant insurance information.
- Students must navigate multiple resources to understand their coverage.

02

Real-Life Impact:

- Confusion and Stress: Students are left unsure about what their insurance covers.
- Financial Strain: Unexpected medical bills due to a lack of cost clarity.
- Delays in Care: Many delay seeking healthcare, leading to worsened conditions.

03

Why it matters?

Over 1.1 million international students in the U.S. rely on university health insurance, and many face these challenges.

Addressing this issue improves student well-being, academic performance, and healthcare outcomes.

The Solution

A digital platform designed to address the challenges faced by students in navigating university-provided health insurance. It eliminates confusion, enhances transparency, and ensures accessibility to healthcare information, empowering students to make informed decisions about their health.

Centralized Platform

- Combines all health insurance details in one place, reducing the need for students to consult multiple resources.

01

Transparent Information

- Provides clear, upfront details about coverage, including copays, deductibles, and limits.
- Offers easy access to provider directories and network affiliations.

02

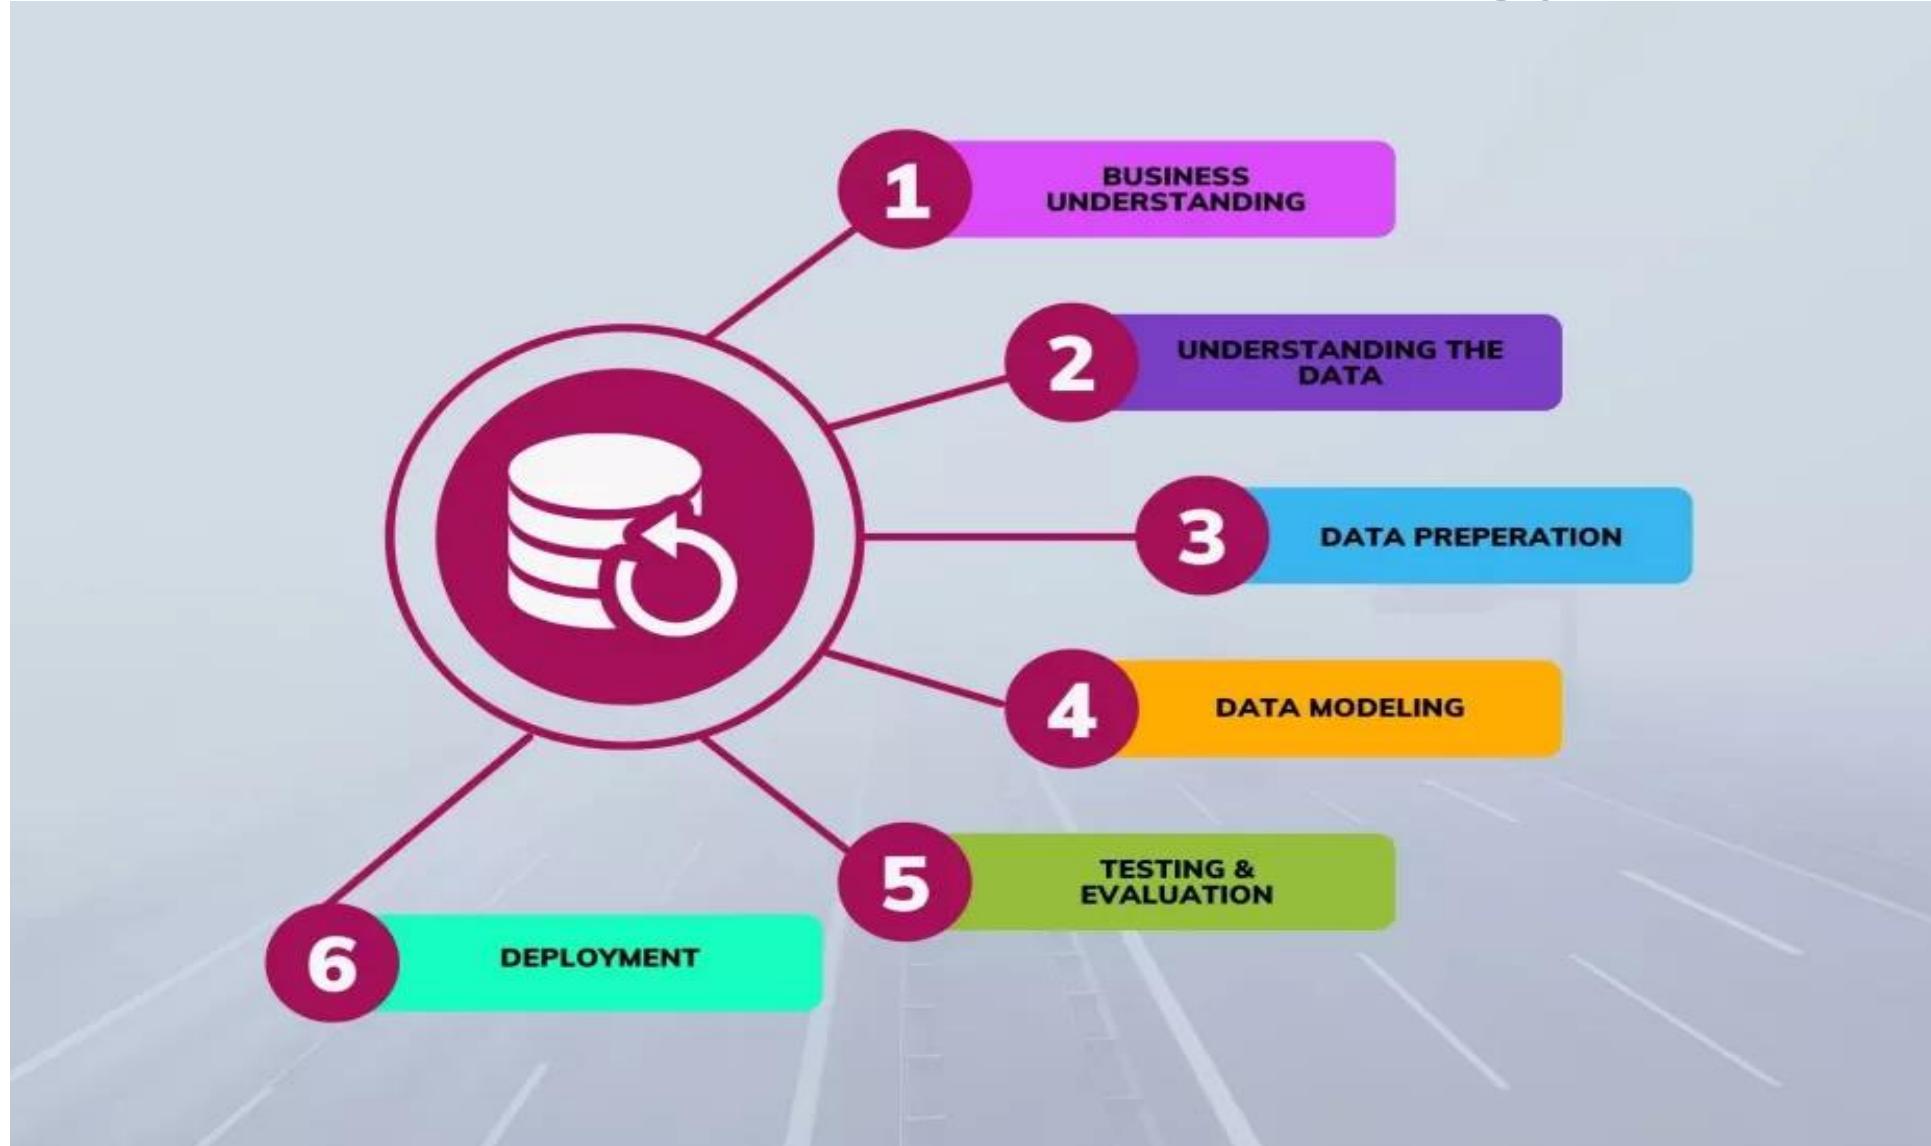

Cost Clarity

- Features a cost estimation tool that calculates out-of-pocket expenses for treatments, helping students avoid unexpected bills.

03

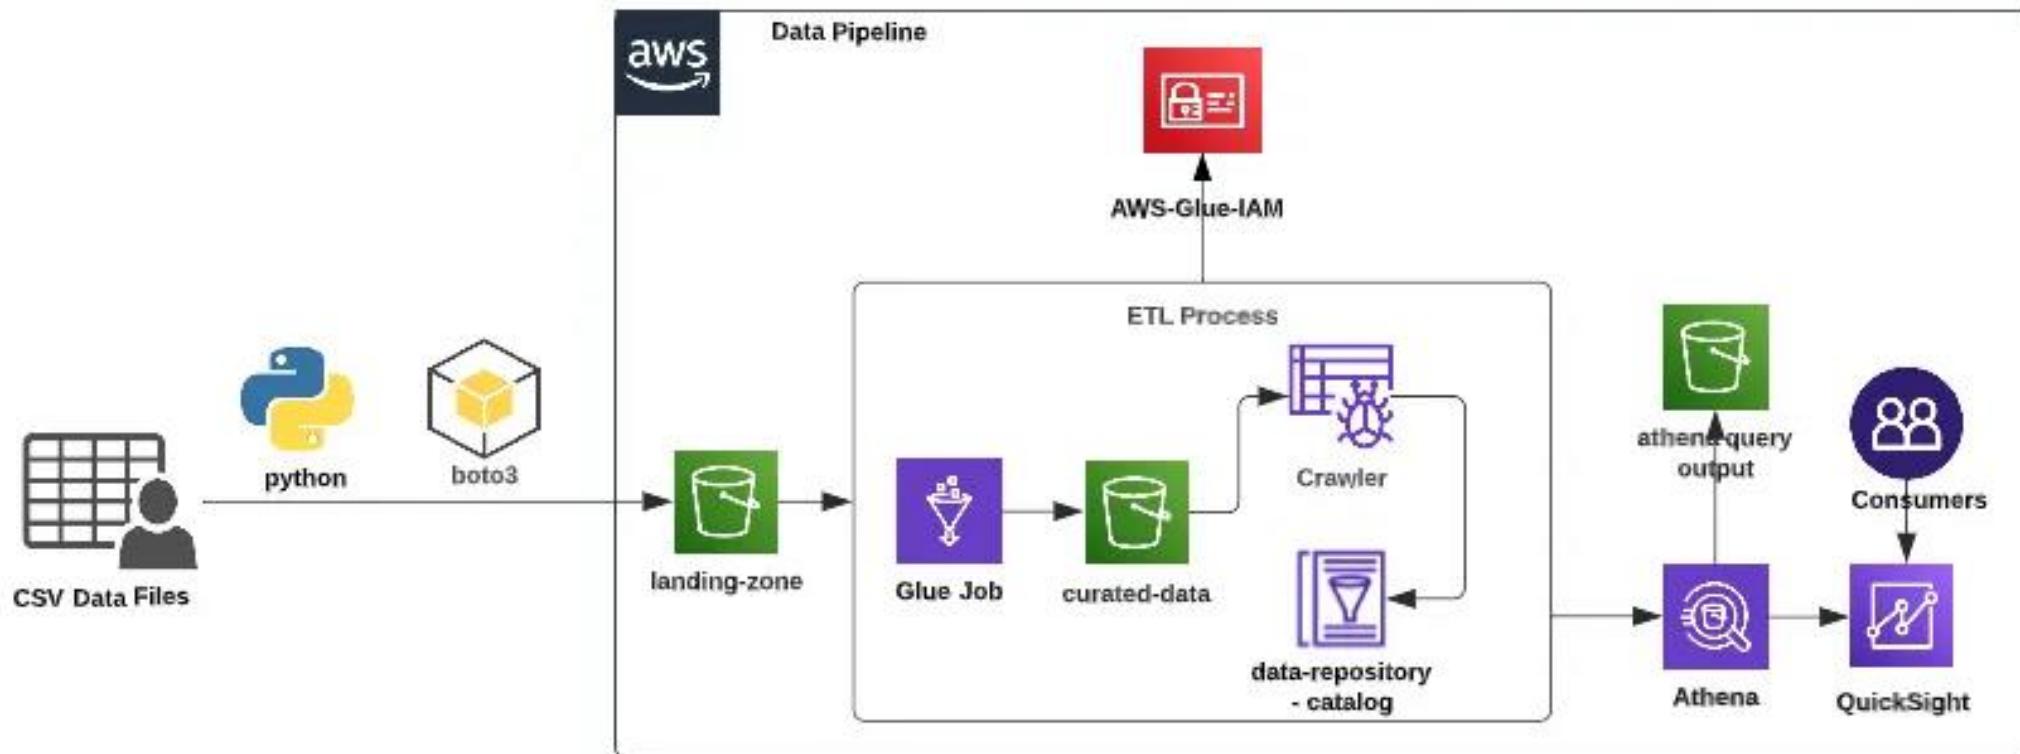

CRISP-DM Methodology

Execution Plans
